- Most advanced pharmacy systems in the industry

Clinical Services And Training

Leaders in Health Management

Rite Aid is a visible leader in important health conditions, such as heart health, diabetes management and weight management. Our pharmacists receive training for each of these conditions, allowing them to practice at the top of their license. And they participate in all state allowed clinical services as a healthcare provider.

Integrative Pharmacy

All Rite Aid Pharmacists not only are well versed in traditional therapies, but are provided continuous training on alternative/complementary therapies for whole being health. As Certified Integrative Pharmacy Specialists, our pharmacists sit in the perfect position to enhance their knowledge and practice on alternative/complementary medicine.

Don't just get healthy. Get thriving.
