

PGY2 EM PHARMACY RESIDENCY PROGRAM

HOSPITAL & PROGRAM OVERVIEW

OVERVIEW OF HOSPITAL SERVICES

CaroMont Regional Medical Center (CRMC) is the anchor of a regional health system, CaroMont Health, comprised of physician practices, urgent care, hospice, and emergency facilities. CRMC is a 435-bed, not-for-profit, community hospital located in Gastonia, North Carolina approximately 18 miles west of Charlotte. The Emergency Department (ED) at the main campus is a 63-bed, Level 3 Trauma Center with approximately 115,000 patient visits annually. The department includes separate, designated areas for pediatrics, pediatric psychiatry, and adult psychiatry patients. Clinical pharmacy services are provided 24/7 by decentralized emergency medicine clinical pharmacist practitioners (CPP). Our services include, but are not limited to, prospective order review for all ED patients and bedside responses for: trauma, respiratory distress, acute myocardial infarction, acute ischemic stroke, adult/pediatric code blue, unresponsiveness, anaphylaxis, adult/pediatric procedural sedation, resuscitation, drug information, patient counseling, medication preparation, and prevention of medication errors. In addition to the main campus of CRMC, CRMC Mount Holly is a 14-bed, free-standing ED located 10 miles northeast of the main medical center and also provides emergency medicine clinical pharmacy services.

The Pharmacy Department also provides services through a pharmacist-managed outpatient anticoagulation clinic, an Operating Room satellite pharmacy, an outpatient pharmacy, and inpatient medication management protocols conducted by specialized pharmacists in critical care, cardiology, and internal medicine. The pharmacists at CRMC are also active in the community through involvement with health screening events, medication education, local high school education, and precepting pharmacy students from the University of North Carolina, Wingate University, High Point University, and Campbell University.

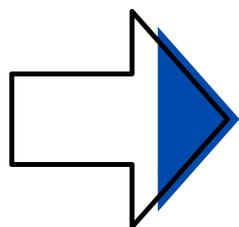

OVERVIEW OF PGY2 EM RESIDENCY PROGRAM

The CRMC Emergency Medicine program is a one-year, ASHP-accredited PGY2 residency. Two residency positions are offered each year, and the residency program begins in the first week of July. Successful completion of an ASHP-accredited PGY1 residency program by June 30 is required. For a resident to successfully complete the PGY2 EM program at CRMC, several key criteria must be met including:

1. Successful completion of 12 months of rotations in which the resident has "passed"
2. Completion of a residency research project, continuing education seminar, and submission of a research manuscript for publication
3. Completion of all longitudinal activities, rotations, projects, educational presentations, and staffing requirements as outlined in the beginning of the residency year

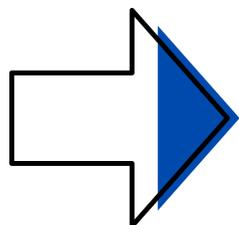

Benefits for the resident include health, dental, and vision coverage, as well as a travel stipend for required conferences including the ASHP Midyear Clinical Meeting and either the Southeastern Residency Conference (SERC) or Research in Education and Practice Symposium (REPS).

CORE ROTATIONS
