ABOUT US

RESIDENCY VISION

We aim to be the premier training site for future pharmacy leaders who provide evidence based pharmacotherapy and patient centered care.

WHERE WE WORK

HOSPITAL INFORMATION

Emory University Hospital (EUH) is the flagship academic, medical center of Emory Healthcare with 751 beds including 155 intensive care unit (ICU) beds. EUH is one of the nation's leading hospitals in cardiology and heart surgery, neurology, and more. The hospital is an NCI-Designated Cancer Center and one of the highest volume transplant centers in the country.

VARIETY OF CLINICAL ROTATIONS

Rotation flexibility and five months of elective opportunities allow for program customization.

ON-CALL PROGRAM

Code Blue, Code Stroke, and drug information response help residents gain independence and foster decision-making skills.

PGY2 EARLY-COMMIT

PGY1 residents at EUH have the opportunity to apply to any Emory Healthcare PGY2 program through the early commit process.
